Aditya Narayanan

Postdoctoral Researcher,
Department of Marine Sciences,
Carl Skottsbergs Gata 22 B,
Gothenburg University, Sweden 41319
email: adityarn@gmail.com
website: https://adityarn.github.io/
Born: May 14th, 1988
Nationality: Indian

Current position

Postdoctoral Researcher, Department of Marine Sciences, Gothenburg University, Sweden

Areas of specialization

Shelf sea processes • Southern Ocean dynamics • Weddell Sea Polynya • Fluid Dynamics • Marine Turbulence

Education

2013-2020 **Ph.D.**, Physical Oceanography, IIT Madras
2013-2020 **MS.**, Ocean Engineering, IIT Madras
2006-2010 **BTech** in Civil Engineering, National Institute of Technology, Jalandhar

Publications

Journals

2019 Aditya Narayanan, Sarah Gille, Matthew Mazloff, Murali K, "Water mass characteristics of the Antarctic margins and the production and seasonality of Dense Shelf Water", *Journal of Geophysical Research: Oceans*, doi: https://doi.org/10.1029/2018JC014907

2020 Queste, B. Y., E. P. Abrahamsen, M. D. du Plessis, S. T. Gille, L. Gregor, M. R. Mazloff, A. Narayanan, F. Roquet, and S. Swart, (2020), "Southern Ocean" [in "State of the Climate in 2019"], *Bull. Amer. Meteor. Soc.*, 101, S307-S309, doi:

https://doi.org/10.1175/BAMS-D-20-0090.1

Under review

Aditya Narayanan, Sarah Gille, Matthew Mazloff, Fabien Roquet, Marcel D. du Plessis, K. Murali, "Interaction of Circumpolar Deep Water with large-scale circulation and shelf water masses in the Southern Ocean"

Conferences

2022 Aditya Narayanan, Birte Gülk, Fabien Roquet, and Alberto Naveira Garabato, (2022), "The oceanic drivers of the 2017 Maud Rise polynya", *EGU General Assembly, Vienna*

2019 Aditya Narayanan, Sarah T. Gille, Matthew Mazloff, Murali K, (2019), "Antarctic Shelf Break Processes and Circumpolar Deep Water Intrusion", *AGU Fall Meeting, San Fransisco*

2019 Aditya Narayanan, Sarah T. Gille, Matthew Mazloff, Murali K, (2019), "Antarctic shelf break processes and their role in determining the bottom temperature regime of the shelf seas", *National Conference on Polar Sciences, National Centre for Polar and Ocean Research, Goa, India.*

2018 Aditya Narayanan, Murali K, (2018), "Analysis of Turbulence in the Weddell Sea: Observations and Modeling", *Ocean Sciences Meeting, Portland.*

2016 Aditya, Narayanan (2016), "Mathematical and numerical modeling of the physics of cold water downslope flows", *CLIVAR Open Science Conference, Qingdao.*

Grants

2019–2021 Co-wrote and defended a grant received from Pacer Outreach Program (POP) under The Polar Science And Cryosphere (PACER) Programme initiative granted by ESSO-NCPOR (MoES) for the project titled, *"Shelf sea and shelf break processes of the Antarctic margins and the production of Dense Shelf Water"*, for the period July 2019 to July 2021, sanctioned for an amount of Rs. 24,03,000/-.

2019–2020 Co-wrote and defended successfully a project proposal – *"Antarctic Slope Front dynamics and cross slope exchanges of heat in the Prydz Bay"* – to sail with the Indian Southern Ocean Expedition, 2020 to be conducted by ESSO-NCPOR, Goa.

Academic achievements & awards

2021 Selected on the "alternate panel" for the Fulbright-Nehru Postdoctoral Fellowship.

2020 Student participant in the Indian Southern Ocean Expedition, January to March 2020.

2019 AGU Student Travel Grant to attend the Fall Meeting in San Fransisco.

2019 1st runner up for best poster award during Young Polar Scientist Meeting held at the National Conference on Polar Sciences, National Center for Polar and Ocean Research, Goa, 2019.

2018 Erik Berkner travel grant to attend Ocean Sciences Meeting, Portland, 2018 (joint conference of AGU, TOS, and ASLO).

2016 WCRP CLIVAR Open Science Conference, Qingdao, 2016, travel assistance award.

Teaching

2021 Co-taught MAR440 and MAV110: courses on numerical computing and ocean data analysis at the Department of Marine Sciences, Gothenburg University, Sweden.

2020-2021 Informal mentoring of M.Sc. student's dissertation on the dynamics of the Antarctic Circumpolar Current.

2020-2021 Informal mentoring of M.Sc. student's dissertation on the watermasses of the Antarctic marginal seas.

Feb 2020 Lectured onboard research vessel during NCPOR's Southern Ocean Expedition 2020: on the basics of oceanographic, atmospheric, and climate data analysis and conducted practical workshops on using Python data analysis packages.

Sep 2019 Research seminar on the bottom temperature regime of the marginal seas of Antarctica, Department of Ocean Engineering, IIT Madras.

Oct 2018 Talk on "Climate Systems" as part of the Open Seminar Series, Department of Physics, IIT Madras.

May 2018 Research Seminar on "Downslope Flows in the marginal seas of the Southern Ocean", Department of Ocean Engineering, IIT Madras.

Nov 2017 Lectured in a workshop on numerical and scientific computing using Python, Department of Ocean Engineering, IIT Madras.

Workshops Attended

2019 Air Sea Interactions in the Bay of Bengal, organised by TIFR-ICTS, Bengaluru

2016 International Summer School on Earth System Modeling, jointly organised by ICTP, Trieste, Italy, and Indian Institute of Tropical Meteorology, Pune

2015 Numerical modeling of free surface flows in coastal and ocean engineering, hands

on experience, jointly organised by IITM and NTNU

2015 Internation Symposium on Antarctic Earth Sciences, Goa

2014 High Performance Computing Workshop, jointly organised by IIT Madras, IIT Bombay, C-DAC Pune, and NVIDIA Corporation

Skills and tools

- Descriptive and dynamical physical oceanography.
- Ship based measurements: CTD, underway CTD, LADCP etc.
- Climate and ocean data analysis
- Scientific computing and computational fluid dynamics

Appointments held

2021- Postdoctoral Researcher, Department of Marine Sciences, Gothenburg University, Sweden.

2019-2020 Senior Project Scientist, IC&SR, IIT Madras.

2013-2019 Half time teaching assistant, IITM.

2010-2013 Project Engineer and Project Manager, Flowline Systems Pvt Ltd.

Service

2018 Assisted university committee on improving diversity and representation in graduate student selection processes.

2014 Organised a graduate students' research conference.

I follow an open data and open science framework where I make my lecture notes and material and software code and workflow openly available on public repositories along with the scientific manuscripts that I publish. See https://github.com/adityarn for more details.
